Recommendation 25. August 2017

To whom it may concern,

Zsanett Vigh has been doing a full-time internship with Kunstrukt from the 2. February to the 18. April 2017.

Zsanett has during her internship been responsible for PR and marketing. She has been involved in all decisions relating to business, marketing and social media and has helped form strategies.

Zsanett has been doing many research-related, communication and text-based assignments. She has been fundraising and successfully raised funds for a project in Tunisia.

Zsanett has communicated with potential collaboration partners and customers. She has also produced different visual material for Kunstrukt using and developing her graphic design and photography skills. Zsanett has shown great maturity and has smoothly managed and prioritised the many different assignments she was given.

Zsanett has proven that she works in a very structured, professional and focused way. She is always very engaged and she has without hesitation and with a lot of energy approached the many assignments she was given. At the same time she is realistic about time-frame and the scale of assignments. Throughout her internship Zsanett always worked very hard on finishing the tasks she was given to a high standard.

We are very pleased with Zsanett's comprehensive efforts and we give her our very best recommendations.

Best regards,

Lone Eriksen
